| Remarks | This document version incorporates a series of refinements made to AIDG version 1.3 for Existing 4 Products and added new standards to support 15 New Products. Please refer to the Change Log (from AIDG 1.3 to 1.4) and the Change Log (from AIDG 1.4 to 1.4.1) for more details. | This version incorporates the 10th July 2015 Reporting Rules requirements. Frequently Asked Questions (FAQs) and Supplementary Reporting Instructions (SRI) for the OTC derivatives reporting regime, some technical requirements to the HKTR have been refined. This document incorporates a series of updates made to AIDG version 1.4.1 for Existing 4 Products and 15 New Products. Please refer to the Change Log (from AIDG 1.4.1 to 1.4.2) for more information. | To cope with the proposed expanded mandatory reporting requirements made in the consultation paper published on the 30th September 2015 for the OTC derivatives transactions, some technical and data fields requiring requirements to the HKTR has been refined accordingly. This document incorporates a series of updates made to AIDG version 1.4.2 on Existing 4 Products & 15 New products of IRF/XEQ, together with all other IRF/XEQ products, the new asset classes - Credit (CR) and Commodity (CM) and valuation transaction information reporting. For the change made for the Existing 4 Products & 15 New Products of IRF/XEQ, please refer to the Change Log (from AIDG 1.4.2 to 1.5) and Change Log (from AIDG v1.5 to v1.5.1) for more information. | This document version incorporates a series of technical updates and refinements made to AIDG version 1.5.1 in response to the revised regulatory proposals on various technical aspect and mandatory reporting data field requirements in the further consultation paper and gazette published on 17 February 2020. Please refer to the Change Log (from AIDG v1.5.1 to v1.5.2) for the update. | This version incorporates technical updates and refinements made to AIDG 1.5.3. The key changes include the updates of the existing coding scheme "FloatingRatesIndex" to align with the latest FpML Coding Schemes version 1.14 published on 27 March 2020 and the update of version of the client software supported by the HKTR system. Please refer to the Change Log (from AIDG v1.5.2 to v1.5.3) for the update. | This version incorporates technical updates and refinements made to AIDG 1.6 regarding the industry feedbacks received, also to improve data quality and align with the international standards. The key changes made in the revised AIDG include (i) updates of coding schemes supported in the HKTR reporting templates, (ii) modification of some input field(s) checking and (iii) changes in some business validation rule(s). Please refer to the Change Log (from AIDG v1.6 to v1.7) for the update. In addition, a regular update will be implemented to the coding scheme "FloatingRatesIndex" supported in the HKTR system on a bi-monthly basis in order to cope with the floating rate indices emerging from the markets from time to time. The details of the update of coding scheme "FloatingRatesIndex" will be reflected in the AIDG Appendix F and the coding scheme is available to be downloaded separately in the HKTR Info Page website. Please also refer to the HKTR Info Page website for the detailed arrangement. | This version incorporates technical updates and refinements made to AIDG 1.7, which mainly include (i) updates of coding schemes supported in the HKTR reporting templates, (ii) renaming of "Unique Trade Identifier (UTI)" to "Unique Transaction Identifier - Unique Swap Identifier (UTUSI)", (iii) cessation of the outdated reporting templates, i.e. the format version - CSV1.0, CSV2.0 and FpML 5.2 and (iv) corresponding changes in some business validation rules. Please refer to the Change Log (from AIDG v1.7 to v1.8) for the update. Please note that the regular update has been implemented to the coding scheme "FloatingRatesIndex" supported in the HKTR system on a bi-monthly basis since June 2021. The latest version of coding scheme "FloatingRatesIndex" is available to be downloaded separately from the HKTR Info Page website. | Note 1: Please note that the 10th July 2015 Reporting Rules requirements (including mandatory reporting data fields requirements) and TR supported values & enumerations are updated into the AIDG v1.4.2. Although the AIDG v1.4 and AIDG v1.4.1 are still usable in term of technical aspect, those reporting requirements in these versions are outdated and obsolete. Reporting entities are required to adopt the AIDG v1.4.2 as soon as possible to fulfil the 10 July 2015 Reporting Rules Requirements and to observe the deadlines for the mandatory reporting requirements and adopting technical standards accordingly. | Note 2: In response to the revised regulatory proposals on various technical aspects and mandatory reporting data field requirements in the Securities and Futures (OTC Derivative Transactions – Reporting and Record Keeping Obligations) (Amendment) Rules 2016 ("Amendment Rules"), the Gazette (Government Notice Number 381(2)) and the Further Consultation Conclusions on Introducing Mandatory Clearing and Expanding Mandatory Reporting ("Phase 2 Reporting"), a set of update requirements and technical specifications for reporting is set out in the version 1.5.2 of Administration and Interface Development Guide ("AIDG"). Reporting entities are reminded to read the revised AIDG (version 1.5.2) carefully to ensure they are fully aware of the changes from the AIDG (version 1.5.1) published on 6 June 2016. Though the Phase 2 Reporting will not come into effective immediately, the existing reporting standards and technical specifications found in all the previous versions of AIDG will be no longer able to support the mandatory reporting requirements under the Phase 2 Reporting which will be commenced on 1 July 2017. Reporting entities are reminded to make preparations to adopt the revised AIDG (version 1.5.2) as soon as possible to ensure that they will be ready when the Phase 2 mandatory reporting requirements start to apply. | Note 3: As the outdated reporting templates (i.e. the former version - CSV1.0, CSV2.0 and FpML 5.2) published in the previous AIDG versions will be no longer supported by the HKTR system, the corresponding trade submission will be rejected by the HKTR system once the AIDG 1.8 is effective. |
| Hong Kong Trade Repository Administration and Interface Development Guide-Reporting Service ("Reporting Service AIDG") Annex –Supplementary Reporting Instruction (SRI) for OTC Derivative Transaction | This document provides a summary of the general requirements for reporting transactions to the HKTRS (including clarification of important concepts) and specific instructions for reporting particular types of transactions under different circumstances. It is important that this document should be read in conjunction with the parts of the SFO relating to the mandatory reporting of OTC derivative transactions, the Reporting Rules and the HKTR reporting manuals. | | | | | | | | | |

Reporting Party should always refer to the latest version published, please refer to the HKTR Info Page website.
