Remarks		To cope with the proposed expanded mandatory reporting requirements made in the consultation paper published on the 30th September 2015 for the OTC derivatives transactions, some technical and data fields reporting requirements in to the HKTR has been refined accordingly. This document version incorporates a series of updates made to AIDG version 1.4.2 on Existing 4 Product & 15 New products of IR/FX/EQ, together with all other IR/FX/EQ products, the new asset classes - Credit (CRI) and Commodity (CM) and valuation transaction information reporting. For the change made for the Existing 4 Products & 15 New Products of IR/FX/EQ, please refer to the Change Log (from AIDG 1.4.2 to 1.5) and Change Log (from AIDG v1.5 to v1.5.1) for more information.		This document version incorporates a series of technical updates and refinements made to AIDG version 1.5.1 in response to the revised regulatory proposals on various technical aspect and mandatory reporting data field requirements in to the further conclusion paper and gazette published on 15 July 2016. Please refer to the Change Log (from AIDG v1.5.1 to v1.5.2) for the update.		This version incorporates technical update made to AIDG version 1.5.2 in response to the TR enhancement for accommodating the new SWIFT WebAccess solution introduced by SWIFT on 17 February 2020, together with some refinements on document/wording (textual amendments) since last published. Please refer to the Change Log (from AIDG v1.5.2 to v1.5.3) for the update.		This version incorporates technical updates and refinements made to AIDG 1.5.3. The key changes include the updates of the existing coding scheme "FloatingRateIndex" to align with the latest FpML Coding Schemes version 1.114 published on 27 March 2020 and the updates of version of the client software supported by the HKTR system. Please refer to the Change Log (from AIDG v1.5.3 to v1.6) for the update.		This version incorporates technical updates and refinements made to AIDG 1.6 regarding the industry feedbacks received, also to improve data quality and align with the international standards. The key changes made in the revised AIDG include (i) updates of coding schemes supported in the HKTR reporting templates, (ii) modification of some input field(s) checking and (iii) changes in some business validation rule(s). Please refer to the Change Log (from AIDG v1.6 to v1.7) for the update.  In addition, a regular update will be implemented to the coding scheme "FloatingRateIndex" supported in the HKTR system on a bi-monthly basis since February 2021. The latest version of coding scheme "FloatingRateIndex" is available to be downloaded separately from the HKTR Info Page website. Please also refer to the HKTR Info Page website for the detailed arrangement.		This version incorporates technical updates and refinements made to AIDG 1.7, which mainly include (i) updates of coding schemes supported in the HKTR reporting templates, (ii) renaming of "Unique Trade Identifier (UTI)" to "Unique Transaction Identifier - Unique Swap Identifier (UTI-USI)", (iii) cessation of the outdated reporting templates, i.e. file format version - CSV1.0, CSV2.0 and FpML 5.2 and (iv) corresponding changes in some business validation rules. Please refer to the Change Log (from AIDG v1.7 to v1.8) for the update.  Please note that the regular update has been implemented to the coding scheme "FloatingRateIndex" supported in the HKTR system on a bi-monthly basis since February 2021. The latest version of coding scheme "FloatingRateIndex" is available to be downloaded separately from the HKTR Info Page website.		This version incorporates technical updates and refinements made to AIDG 1.8, which mainly include (i) making available the "Global Unique Transaction Identifier" (Global UTI) related data fields in anticipation of the global implementation of UTI, (ii) enhancing the Equity templates to address market feedback and cater to regulatory needs, (iii) amending data field descriptions to accommodate the mandating of reporting specified field values and product types.
